

Small Form Factor I-Beam Mount

Ventev's Small Form Factor I-Beam Mount is designed to allow mounting of an access point (AP) to an I-beam. The mount can be deployed into either the vertical or horizontal plane. The small form factor design with minimal components makes installation quick and easy. In addition, the ease of installation allows the mount to be moved easily to optimize RF coverage. Constructed of corrosion resistant 5052 aluminum this mount can be used for indoor or outdoor Wi-Fi deployments.

Every Ventev mount is covered by the company's two-year TerraNet warranty program. **For more information or to purchase, contact Ventev:** 800.851.4965 or sales@ventev.com.
