IAK-0150A

IXA PREMIUM ACCESSORY KIT

Reach maximum efficiency and safety in your test environment by using the Kaelus iXA* 2-port PIM Test Analyser with integrated Range to Fault (RTF) Technology. This accessory kit includes all necessary components required to perform a system check of the iXA and perform PIM testing.

The iAK Premium Accessory kit completes your Kaelus PIM testing solution for use in any test environment from the top of the tower, the base of the tower, rooftop, in-building for DAS systems. In addition, the carrying hard-case has customized storage and is rugged enough for complete protection of the iXA and components during transport or on-site testing.

*iXA sold separately.

FEATURES

- High Capacity Battery for iXA
- PIM source and Low PIM Load
- Rugged and portable
- All accessories and iXA in one case!
- Check out iAK-0160A (transit case) and iAK-0140A (Soft case accessory kit) for alternative handling of the iXA and its accessories.
