

2.4/5 GHz 6 dBi 4" Omnidirectional Wi-Fi Small Form-Factor Antenna with 4 N Plugs

Ventev's TerraWave 2.4/5 GHz 6 dBi 4" outdoor Multiple-Input and Multiple-Output (MIMO) Small Form Factor omnidirectional Wi-Fi antenna is designed to operate with any manufacturer's 4-lead 802.11ac Waves I & II WLAN access points. The antenna's small size and clean appearance, combined with excellent performance, make it ideal for deployments ranging from large office spaces to warehouse or manufacturing environments where space is limited or visual appeal is important. The 4 dual-band leads support all 802.11ac radio chains (2.4 or 5 GHz) and enable spatial multiplexing. An L-bracket with mounting hardware is included to support mast and/or wall mounting.

Every Ventev TerraWave antenna is RoHS compliant, and is covered by the company's two-year TerraNet warranty program. For questions or to purchase product, contact a Regional Sales Executive at 410-229-1201, 800-851-4965 or sales@ventev.com.
