IAK-0160A

IXA TRANSIT CASE

Reach maximum efficiency and safety in your test environment by using the Kaelus iXA* 2-port PIM Test Analyser with integrated Range to Fault (RTF) Technology. This rugged transit case is designed to transport the iXA safely.

This case is typically used with the iAK-0140A to carry the accessories that include all necessary components required to perform a system check of the iXA and perform PIM testing.

The iAK Accessory kit completes your Kaelus PIM testing solution in any test environment from top of tower, base of tower, rooftop and in-building systems.

*iXA sold separately.

FEATURES

- Rugged and portable
- Check out iAK-0140A (Soft case accessory kit) for handling of the iXA accessories.
- Check out iAK-0150A (Premium accessory KIT) for alternative handling of the iXA and its acccessories.
