

## 2.4/5 GHz 6 dBi Omni Wi-Fi Small Form Factor Light Pole Antenna with 4 RPTNC Plugs

### Mounting Instructions

1. Mark and drill four holes in pipe that match the four holes in the antenna's mounting adapter plate.
2. Set antenna's mounting adapter plate inside the pole and align adapter plate's holes with the holes drilled in step 1.
3. Insert and tighten #10 x  $\frac{3}{4}$  Phillips Flat Stainless Steel Screws in the four bolt holes. The screws will self-thread inside the adapter plate to hold the antenna securely in place.
