## 2-Port DisplayPort to DVI Hub, DP1.2, TAA

## MODEL NUMBER: B157-002-DVI

Converts and splits a DisplayPort video signal for display on two DVI monitors, projectors or televisions at the same time. Ideal for offices, conference rooms, retail settings, trade shows and classrooms.

## Description

The B157-002-DVI 2-Port DisplayPort to DVI Splitter converts and splits a DisplayPort video signal for display on two DVI-enabled monitors, projectors or televisions at the same time. Ideal for offices, conference rooms, retail settings, trade shows and classrooms, this compact splitter features a built-in DisplayPort cable that connects to the source. It lets you use your existing DVI displays instead of buying new DisplayPort monitors or docking stations.

The B157-002-DVI supports video resolutions up to 1080p @ 60 Hz ( $1920 \times 1080$ ), as well as HDCP, EDID and DDC. Orange LEDs next to each output port indicate whether the splitter is powered on and transmitting a signal to the connected displays. The splitter works with all operating systems and is small enough to carry in your backpack or computer bag. Plug-and-play convenience means no software or drivers are needed. An included USB Micro-B cable connects between the source and the splitter to provide power, so no external power supply is required.

## Features

Converts and Splits DisplayPort Signal to 2 DVI Displays Simultaneouslyldeal for offices, conference rooms, trade shows and classroomsBuilt-in DisplayPort cable connects to sourcelncluded USB Micro-B cable supplies power to splitterSave money on new DisplayPort displays or docking stations
Top-Shelf PerformanceSupports video resolutions up to 1080 p @ $60 \mathrm{~Hz}(1920 \times 1080)$ Complies with HDCP, EDID and DDCLEDs indicate whether splitter is powered on and transmitting signal to connected displays
