Sentera is an authorized dealer of Lockheed Martin's Digital Indago™ LE drone. This quick-access, compact drone can provide first responders with enhanced situational awareness in a matter of minutes.

DIGITAL INDAGO™ LE CIVIL / COMMERCIAL

The Digital Indago™ LE vertical take-off and landing (VTOL) drone easily fits into a trunk and deploys in minutes to provide an aerial perspective of confined, crowded, or otherwise inaccessible areas. A key instrument for assessing volatile or potentially dangerous situations, enhancing responder safety, the Indago LE drone is also ideal for scouting missions to capture imagery and developing training models.

BENEFITS

- Provides on-demand aerial reconnaissance during search and rescue activities
- Captures visual records for pre-mission planning and post-mission assessment
- Helps protect professionals by acquiring event imagery
- Integrates with Sentera OnTop™ to organize, store, view and share data with a team

INDAGO™ LE PERFORMANCE SPECIFICATIONS

Max take off weight	5.75 lb (2.61 kg)
Size	32 in x 32 in x 7 in (81.28 cm x 81.28 cm x 17.78 cm)
Range	1.2 - 6.2 miles (2-10 km) dependent on radio and antenna selection
Endurance	Up to 50 minutes
Payloads	Multiple, hot-swappable payloads
Operating altitude	10-500' above ground level (AGL)

SENTERA MULTI-MISSION SOLUTION

The Indago™ LE is a highly versatile drone which accepts multiple sensors, ensuring every mission is equipped to capture precise data. Compatible sensors include Lockheed Martin's Duo+ and Ion 30x, and Sentera's modified Sony® DSC-QX10, Double, Quad and Single Sensors.

Lockheed Martin Duo+

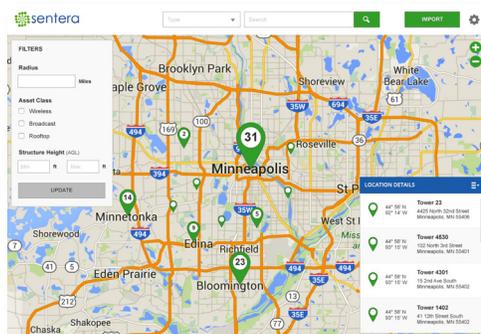

Lockheed Martin Ion 30x

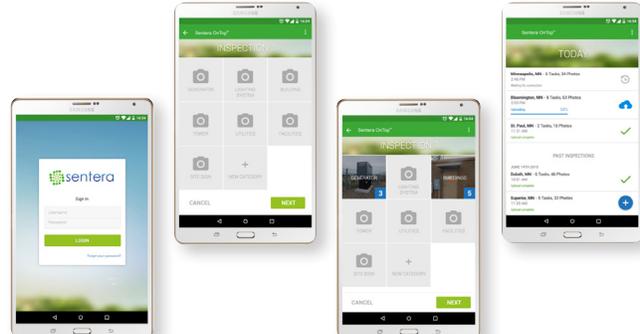

Sony® DSC-QX10
with Sentera Mapping Modifications

Sentera Quad, Double, and Single Sensors

SENTERA ONTOP™ SOFTWARE SOLUTION

Once data is collected, hundreds of images must be managed to unlock the value embedded within the imagery. Sentera's proprietary software solution, OnTop™, enables officers and professionals to do just that. Sentera's OnTop software solution allows users to organize, store, view, comment on, and share critical images with teams and organizations, expanding the circle of impact. The Sentera OnTop software solution is compatible with many of the most popular analytics, mosaicking, and 3D modeling tools, making flow of imagery and information from capture to detailed analysis virtually seamless.
