

25" Universal Console Box

Our biggest universal box yet.

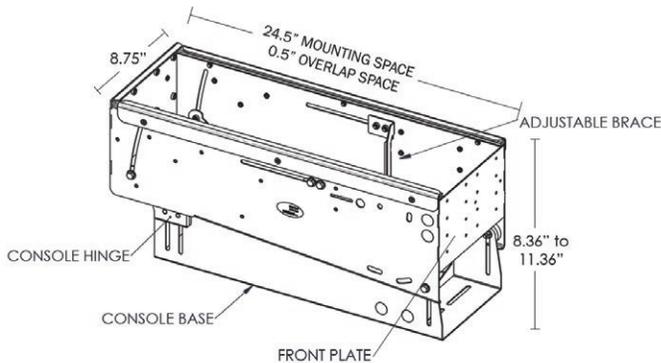

This box is big, sturdy, and completely adjustable to fit your vehicle. Take advantage of the spacious design by adding full size radios, light, and other electronics.

Adjustable height and angle

The 25" universal console box comes with a variety of ways to adjust it to fit your vehicle. The height adjusts from 8.36" to 11.36" tall. You can angle the box up to 9 degrees so you'll be able to read your electronic displays in any light.

A big box for all your accessories

The box can house a power distribution block or a Lind shut-down timer to protect your vehicle's battery from damage caused by low or high voltage. There's plenty of space for all your Gamber-Johnson accessories too - arm rests, cup holders, side pockets, and more.

Shown with optional mic clip, cup holder, vertical computer mount, and arm rests

Features
