

## R&M Fiber Optic Patch Cords

### Fiber Optic Patch Cords

High quality interconnectivity components are the key to powerful fiber optic networks. R&M offers a complete range of optical cords and pigtails finished in a variety of cable and connector configurations.

The cable is fully compatible with all standard cable management accessories and requires no special tools or knowledge to install.

All patch cords are assembled in accordance with ISO IEC 61753-1 and guarantee the highest quality and reliability.

Available in a wide range of lengths, according to the customer's needs

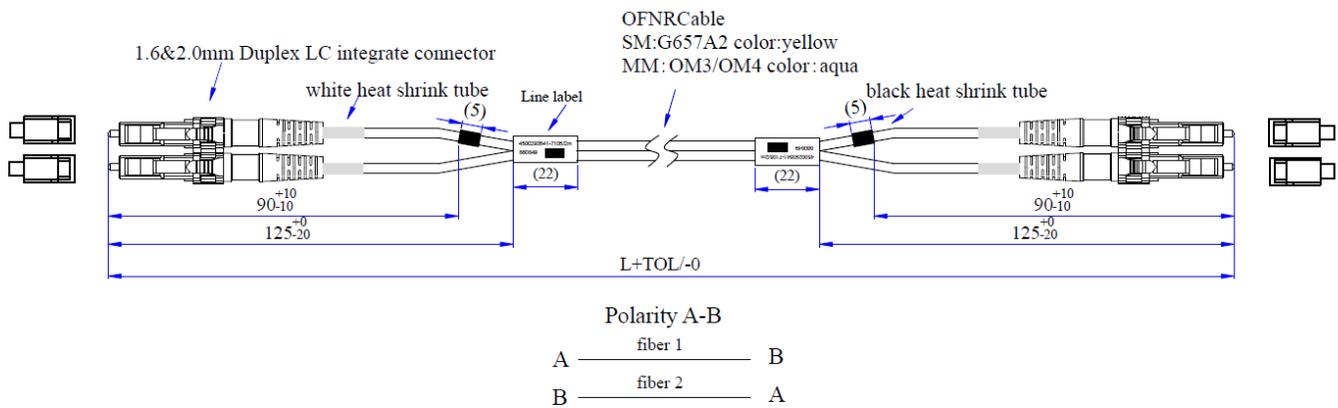

OFNR Fiber (Riser)

Typical IL ≤ 0.2 dB

Patch cords: Diameter 1.6mm / 2.0mm / 3.0 mm

### GENERAL DESCRIPTION

Black connector housings are used for multimode, blue, or green connector housings for singlemode patch cords. Colored boots identify the fiber type; aqua for multimode OM4, blue for singlemode UPC, green for singlemode APC. White heat shrinks prevent damage of the fiber from side pulls. The polarity is identified with a black heat shrink on the cable right behind the heat shrink. All R&M patch cords come with transparent clips installed with a polarity mapping A-B (changeable on site).

### CLIMATICAL DATA

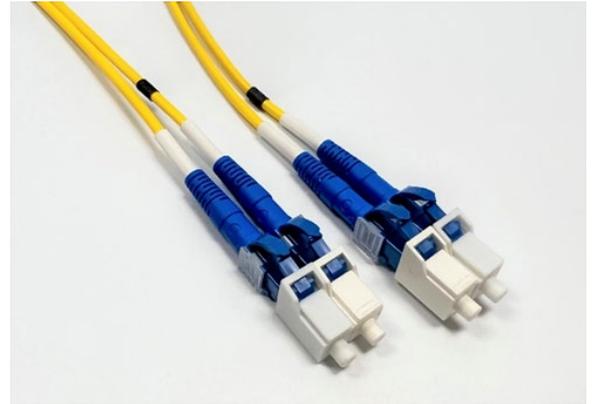

DESCRIPTION		VALUE / VALUE RANGE	STANDARD
Temperature range	Service	-25 °C to +70 °C / -13 °F to +158 °F	
	Storage	-25 °C to +70 °C / -13 °F to +158 °F	
	Transport	-25 °C to +70 °C / -13 °F to +158 °F
